

The Jerven Bag

Original

Forrest-camo product-nr: 1000
Olivengreen product-nr: 1001
Mountain-camo product-nr: 1002

The single layer, light Jerven bag (without lining) Which ought to be the steady companion on any tour. Big enough to sit in, and excellent as a rain cover, for both you and the backpack.

Areas of use:
Small game hunting, fishing, tours in the woods and the mountains. For lighter tours, during the milder seasons.

Produces condensation.

Weight: About 650 grams.

NOTICE: Rescueflag and Armcovers included in price.

This person is 180 cm tall.

Thermo

Forrest-camo product-nr: 1006
Mountain-camo product-nr: 1007

Identical to The Jerven bag Original, but this one is lined, and padded in addition. Warmer, more comfortable and the condensation problem is gone.

This applies, by the way, to all the thermo bags. If you're 6'3" or more bare-foot, you ought to choose a larger Jerven bag. For all year use.

Padding: 80 grams per m².
Weight: About 1300 grams.

NOTICE: Rescueflag, Armcovers and Cushion-bag included in price.

Thermo Extreme

Forrest-camo product-nr: 1030
Mountain-camo product-nr: 1031
Rescue/orange product-nr: 1035

Identical to The Jerven bag Thermo Hunter, but this one has an extra thick padding. Special bag, preferably to be used as an extra warm wind sack, or as a sleeping bag/sleeping bag reinforcement.

Also available as Rescue-model in sharp orange.

Padding: 200 grams pr m².
Weight: About 2000 gr.

NOTICE: Rescueflag, Armcovers and Cushion-bag included in price.

Thermo King Size

Forrest-camo product-nr: 1020
Mountain-camo product-nr: 1021

This one gives room for two persons. Or as quick and easy bag tent for one. This is the right Jerven bag for you, who wants room for most everything. First choice for many expeditions, including to the South Pole.

For all year use.

Padding: 80 grams per m².
Weight: About 1900 gr.

NOTICE: Rescueflag, Armcovers and Cushion-bag included in price.

Thermo Hunter

Forrest-camo product-nr: 1034
Mountain-camo product-nr: 1033
Rescue/orange product-nr: 1032

The big game hunter's best friend. This one is so long you may lie in it. The Jerven bag, Thermo Hunter has become the Military's most popular model. Use it as a poncho, wind-sack or sleeping bag/sleeping bag reinforcement.

For all year use.

Also available as Rescue-model in sharp orange.

Padding: 80 gr. per m².
Weight: About 1500 gr.

NOTICE: Rescueflag, Armcovers and Cushion-bag included in price.
